Period of Data Collection

It is important to note that data on prices was collected during the period from 11 to 17 February 2021. The changes in prices in this report refer to that period of data collection.

THE NEW CONSUMER PRICE INDEX

With effect from March 2019 ZIMSTAT is publishing the new Consumer Price Index (CPI) with new weights and a classification. The use of a Classification of Individual Consumption by Purpose (COICOP) resulted in the creation of a new classification which resulted in coming up with 83 classes, 41 groups and 12 divisions. The number of items in the CPI basket is 495.

The implementation of the COICOP classification is also part of the harmonisation project of Consumer Price Indices in different regions like the SADC region. All member states are supposed to adopt the new procedure to enable inter country comparisons of the CPI and the rate of inflation. The new weights are therefore applicable from February 2019 onwards.
